

QUALITY POLICY

We, the employees at **DWK Life Sciences LLC**, are committed to providing a comprehensive range of reliable and safe laboratory products, precision glassware, and other specialty glass products for drug discovery, life science, and industrial markets.

We honor this commitment by taking a process approach that constantly evaluates business opportunities and risks that can enhance our stakeholders' requirements.

We deliver this commitment through continuous improvement of our quality system, product quality, service levels, bi directional stakeholder communication, product offerings, cost measures, employee satisfaction, and environmental sustainability of our materials and processes.

We live this commitment by fostering an employee culture of leadership, ownership, accountability, and involvement driven by a passion for our core values:
